

IQ CARE EYELID CLEANSER

FEATURES

- A unique solution designed for cleansing and removing debris to promote good eye hygiene.
- **IQ CARE EYELID CLEANSER** cleans eyelid and eyelashes effectively by removing crusting and secretions which are common symptoms of Blepharitis and Dry Eye conditions.
- Contains pure HOCl (0.01%) – A powerful yet friendly broad-spectrum hypoallergenic antimicrobial agent.
- Non-irritant and non-toxic – Suitable for all skin types.
- Microcidal – Kills all ocular pathogens including bacteria, viruses, fungi and protozoa. These pathogens often inhabit the eye region from poor eye hygiene management causing risky infections.
- Completely safe for the application area for cleansing with a soothing effect to the soft skin around the eyes.

METHOD

1. Spray the solution onto a lint-free pad or swab until moistened.
2. Close eyes and gently apply to eyelid and eyelashes using side to side motions.
3. Use twice daily or as recommended by your healthcare professional.
