

IQ CARE WOUND SOLUTION

FEATURES

- Microcidal – Kills 99.99% of bacteria, bacterial spores, viruses and fungi on contact, ensuring microbial load reduction in acute and chronic wounds.
- This isotonic solution contains pure HOCl (0.02%) – A powerful yet friendly broad-spectrum hypoallergenic antimicrobial agent.
- **IQ CARE WOUND SOLUTION** is non-cytotoxic and aids in the healing process of wounds by ensuring fibroblast viability, tissue granulation and epithelialization with minimal scar formation.
- No resistance to HOCl has ever been reported and HOCl solutions have been shown to assist in the treatment of
 - Diabetic foot ulcers
 - Decubital ulcers
 - Venous ulcers
 - Burn wounds
 - Surgical wounds, etc.
- Removes exudate, slime or biofilm by dislodgement due to the ORP (Oxidation Reduction Potential)
- Reduction and even elimination of costly topical antibiotic substances with known cytotoxic properties.

METHOD OF APPLICATION

- In order to achieve a rapid reduction in microbial load, rinse the wound with copious amounts of **IQ CARE WOUND SOLUTION** until loose and visible debris has been removed.
- Apply a gauze saturated with **IQ CARE WOUND SOLUTION** and compress for up to 5 minutes every time the dressing is changed
- Select an appropriate wound dressing as per international guidelines.
- Remember that covered moist wounds heal faster than dry or wet wounds

SIDE EFFECTS

None known. Contains no chemicals or alcohol in composition. For external use only.
