

IQ DISINFECTANT SOLUTION

OVERVIEW

Germes are everywhere and what makes it worse is that we can't see them and often undermine their harmful effects. What are germs? They are the first leading cause of infection, resulting in diseases which consist of Bacteria, Viruses, Fungi, moulds, spores, cysts and many more.

IQ Green Solutions are encouraging a holistic approach to green, environmentally friendly and non-toxic products used for disinfection. **IQ DISINFECTANT** solution kills 99.99% of infectious causing germs in all "high touch" areas and general surfaces where routine disinfection is required.

FEATURES

- The active ingredient of **IQ DISINFECTANT** is Hypochlorous solution ($\pm 0.05\%$), a natural forming compound, similar to that produced by our immune systems.
- Hypochlorous solution destroys all germs including bacteria, viruses, fungi, spores, cysts, etc.
- Germs cannot build resistance to Hypochlorous solution due the mode of action in which it eliminates them.
- **IQ DISINFECTANT** solution can be used for the disinfection of equipment and surfaces in both households and industrial surfaces.
- **IQ DISINFECTANT** solution deodorizes by killing odour causing germs.
- **IQ DISINFECTANT** solution is an eco-friendly, biodegradable, non-irritant and non-toxic disinfectant which can be used in all areas.

METHOD OF APPLICATION

1. Dilute 1 part of **IQ DISINFECTANT SOLUTION** to 4 parts clean water for surface disinfection. Once diluted, **IQ DISINFECTANT SOLUTION** is a HIGH LEVEL disinfectant spray or fogging solution which can be use in all areas.
2. Dilute 1 part **IQ DISINFECTANT SOLUTION** to 9 parts clean water for ultrasonic humidifiers.

SIDE EFFECTS

None known. This product contains no harmful chemical compounds or alcohol in composition and is completely safe to use in all areas as instructed.
