

IQ HUMIDIFYING SOLUTION

OVERVIEW

Clean quality air is crucial to human physiology. The air we breathe is continuously polluted by countless individuals and from industries as a whole. Apart from pollution, airborne germs dwell in our surroundings and causes various infections which leads to the rise of life threatening illnesses. The airborne germs and pollutants contribute to major respiratory ailments causing asthma, allergies and infections of the respiratory tract. **IQ HUMIDIFYING SOLUTION** can eliminate the toughest of germs. With its gentle qualities, it is the ideal product for all ages to disinfect the air we breathe in our homes, schools, workplaces, or any enclosed space where airborne germs are found.

FEATURES

- **IQ HUMIDIFYING SOLUTION** Kills harmful germs including viruses and bacteria.
- The active ingredient responsible for **IQ HUMIDIFYING SOLUTIONS** broad-spectrum germ killing and air purifying capabilities is HOCl ($\pm 0.05\%$).
- HOCl is a natural forming acid, similar to that produced by our immune systems.
- **IQ HUMIDIFYING SOLUTION** is eco-friendly and biodegradable.
- **IQ HUMIDIFYING SOLUTION** is non-irritant and non-toxic, suitable for all skin types.
- **IQ HUMIDIFYING SOLUTION** deodorizes the air by eliminating odour causing germs.

METHOD OF APPLICATION

Cleaning your humidifier regularly will improve the usefulness of your device. Failure in doing this will favour growth of germs in the humidifier and will be expelled into the air we breathe.

Once your humidifying device is cleaned and ready to be used:

1. Add **IQ HUMIDIFYING SOLUTION** to clean water at a 1:10 dilution rate.
2. Fill any humidifying device with the diluted solution.
3. Place the humidifying device in a suitable space for the air to be purified.

SIDE EFFECTS

None known. This product contains no harmful chemical compounds or alcohol in composition and is completely safe to use in all areas as instructed.
